Training program

3DEXPERIENCE WELDED CONSTRUCTION

2024 release

Duration :7 hours or 2 half-days (tailor-made dates)

Place : Distance

Means of evaluation: Evaluation of acquired skills throughout the training via practical exercises on the software.

Teaching means: Alternation between theoretical contribution and practice, regular rounds of tables.

Training framework:SOLIDWORKS Certified Trainers and Programs

Head teacher : Pierre-Marc Allain

Reference:3DX_SW_CS

Goals

- Make a 3D sketch and dress it up
- Designing a structure in a production context

Rate

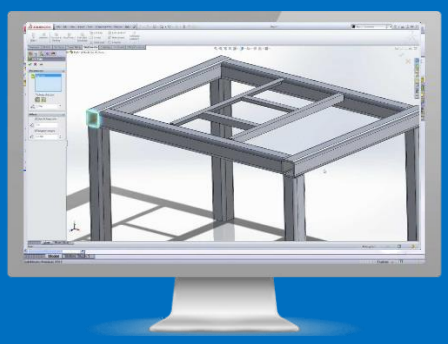
720 € excl. tax per company

Prerequisites

Knowledge of the environment Windows

CSW or have followed a basic training (SW ESSENTIAL) or 6 months of practice on SW minimum

Number of trainees:1 to 6 max



During this training, you will be introduced to the philosophy and functionalities of the SOLIDWORKS weldment module. You will learn how to design mechanically welded assemblies and all types of bar constructions (frames, structures, gates, railings, etc.).

Targeted audience :

Designer, technician or engineer in a design office, methods office or production having followed the SOLIDWORKS ESSENTIEL training or having at least 6 months of experience on the solution or certified CSWA.

Detailed content

1. Working with Weldments
2. Drawing and cut lists
3. Create a profile

Registration details :

Please contact us at least 10 days before the desired training start date via formation@xdinnovation.eu . In order to analyze your needs, one of our engineers will contact you by telephone to provide you with a service adapted to your knowledge and your objectives.

In the event of subrogation, payment, an agreement from the funder must be received by us before the start of the training.

Accessibility for people with disabilities:

The law of September 5, 2018 for the "freedom to choose one's professional future" aims to facilitate access to employment for people with disabilities. Our organization tries to give everyone the same chances of accessing or maintaining employment and training. We can adapt certain training methods, for this we will study your needs together.

For any questions, please contact our disability referent Pierre-Marc Allain: pmallain@xdinnovation.eu
